个人介绍/personal introduction

As a seasoned manager and consultant, my foundation is rooted in economics, organization development, and project management. Holding a degree in Economics and a Master's in Business Administration, I have since 2010 dedicated my career to steering businesses and organizations toward their objectives, across both private and public sectors. My journey has seen me leading teams through significant institutional reforms, including the creation, merging, and restructuring of state-owned enterprises. Beyond my professional pursuits, I am passionate about engaging in social projects to boost education and economic empowerment for our youth. Traveling and learning new languages embody my personal thirst for continuous growth. As a technophile, I closely follow trends in AI, IT, blockchain, and cryptocurrencies like Bitcoin. With every challenge, I strive to drive change and innovation, shaping our personal and collective future. I look forward to facing new challenges, discovering opportunities, and continuing to contribute positively to the society.

取得成就/ Major Achievements

I work in technical coordination of the National Housing Plan (PLANAH) of Cape Verde 2021-2030 Technical coordination in the establishment of the public company ICV - Infrastructure of Cape Verde, SA Technical coordination of the merger between the FAMR and the Road Institute (IE), leading to the creation of the public company ECV - Roads of Cape Verde, EPE Technical coordination of the restructuring of the public company IFH - Real Estate, Land and Habitat, SA Development of feasibility studies, market analyses, business plans, etc., for various private enterprises.

个人介绍/personal introduction

I work at the Finance school, Anhui University of Finance and Economics, China. As an external member, I am also affiliated with the Africa-Asia Center for Sustainability of the University of Aberdeen, Scotland. I completed my PhD in Enterprise Management (Finance) from Wuhan University of Technology, China, in December 2020. I did two MBAs, one from Wuhan University of Technology, China, in 2015 and the other from the University of the Punjab, Pakistan, in 2007. I have worked for a bank, an insurance company, and a brokerage house (briefly), which brings me practical experience in these financial institutions. I have taught international business and finance, corporate finance, and commercial bank management at Pakistan's graduate and undergraduate levels, which I really enjoyed. I had a wonderful experience teaching and supporting students with diverse thoughts and approaches. My research interests include corporate innovation, green finance and ESG investments, cryptocurrencies, international financial contagion, and financial markets. My works have appeared in journals like Annals of Operations Research, International Review of Financial Analysis, Journal of International Financial Markets Institutions & Money, International Journal of Finance and Economics, Finance Research Letters, Journal of Multinational Financial Management, Applied Economics, Journal of Environmental Management, European Journal of Innovation Management, Science of the Total Environment, Renewable Energy, Resources Policy, and Chinese Political Science Review, etc. I have performed around 130 reviews for prestigious journals like JBR, EE, JCP, FRL, IJFE, QREF, EM, AE, IJOEM, FI, EB, E&E, JBEF, and AQAH till now. I recently joined the editorial team of International Journal of Emerging Markets (SSCI, Q2 Economics) as an editorial review board member. Around 15 of my works are under review in various journals, ranked ABS-3 and ABS-2. I was the head of the Cricket Club, the Representative of the Pakistan community in the International Cultural Exchange Association, and a Class Representative. I also started a small venture (a restaurant) and provided (full and part-time) employment opportunities to local Chinese and international students.

取得成就/ Major Achievements

I have 35 articles published in Q1 and Q2 SSCI/SCI Journals.

Dr. Ra'fat Jallad is an esteemed academic and accomplished leader in the field of business and communication. Currently serving as the Dean of the Faculty of Business and Communication at An-Najah National University, my impressive educational background and extensive work experience have shaped me into a respected authority in my field. I hold a Ph.D. in Financial Engineering from Wuhan University of Technology in China, demonstrating my commitment to pursuing advanced knowledge in the intricacies of finance. Additionally, I earned an MBA from the Free University of Brussels (VUB), a Master's degree in Banking and Finance from Gent University, and a Bachelor's degree in Accounting and Economics from An-Najah National University. This diverse educational foundation equips me with a comprehensive understanding of various disciplines within the business realm. With a career spanning over 15 years in the investment industry, I have held prominent executive positions at prestigious companies, operating at the C-suite level. My wealth of experience in strategic decision-making, financial analysis, and corporate leadership has honed my expertise in effectively navigating the complex dynamics of the business world. My professional certifications further exemplify the commitment to excellence. I am a Certified Management Accountant and Chartered Valuation Analyst, credentials that validate my proficiency in financial management and valuation practices. Additionally, I hold a certification as a trainer in Islamic Finance, showcasing my dedication to promoting ethical and sustainable financial principles. As the Dean of the Faculty of Business and Communication, I bring my extensive knowledge and practical insights to guide students and faculty members alike.

个人介绍/personal introduction

Rajendra Prasad Singh (辛格) is working as a Professor at the School of Civil Engineering, Southeast University, Nanjing, China. I am also associated with the Southeast University-Monash University Joint Graduate School at Suzhou, China. Prof. I was at Wuhan University of Technology, School of Civil & Architectural Engineering, from 2005 to 2009 for pursuing advance research in the field of Environmental Science & Engineering under Indo-China Fellowship (2005), and Post Doctoral Fellowship (2007-2009) where I worked with Prof. Jiang Yinghe. Currently I am actively engaged in research related to bioremediation, use of nano-technology in bio-treatment, water and wastewater treatment, sustainable urban water development, sustainable urban water system planning & design; low-impact development; ecological improvement for urban road and public space; real-time control of urban water supply and drainage systems; climate change; urban water environment and water ecosystem restoration; rural ecological protection & restoration, and other environmental pollution related issues. I was the visiting fellow at School of Civil and Environmental Engineering, Purdue University in year 2013. Prof. Singh has published more than 140 research papers in leading SCI/JCR indexed international journals. I was a recipient of International Young Scientist Fellow Awards of National Natural Science Foundation of China (NSFC) in 2015 and 2017. I am a member of various academic and non-governmental organization e.g. American Society of Civil Engineers (ASCE), Environmental & Water Resources Institute (EWRI), and International Water Association (IWA). I am also serving as Editorial board member in Water, Associate Editor in Frontiers of Environmental sciences, Journal of Civil, Construction and Environmental Engineering, Review Editor in Frontiers in Microbiology and Frontiers in Bioenergy journals. I am also served as guest editor in highly reputed SCI/JCR indexed international journals e.g. Bioresource Technology, International Biodeterioration & Biodegradation, International Journal of Water Resources Development, Water, Environmental Science & Pollution Research, and Applied Sciences. I am the chair and organizer of ICWRS-ICAFEE 2018 conference held at Southeast University in Nanjing, China, and co-chair of following ICAFEE conferences.

取得成就/ Major Achievements

I am currently working as Professor of Civil Engineering at Southeast University, China. I am a doctoral and master's supervisor and engaged in research related to various urban drainage/water management issues including urban water and wastewater treatment, urban water infrastructure, sponge cities, rivers and lake pollution management, biofuel, bioremediation, nano-plastics, etc. I am the recipient of China's prestigious NSFC Fellowship for International Young Scientist twice in 2015-16 and 2017. I have published more than 140 research papers in reputed JCR/WoS indexed journals and received many projects from NSFC and other agencies in China. I am serving as associate editor, editorial board member and guest editor in many reputed internal journals.

个人介绍/personal introduction

I am currently honored to serve as the Head of the Department in the MSc in Construction Management program at Nepal Engineering College CPS, located in Lalitpur, Nepal. In addition, I have the privilege of working as a freelance consultant in the construction industry during specific seasons. I am genuinely interested in exploring potential opportunities for collaboration with WHUT (Wuhan University of Technology). I believe that working together could lead to mutually beneficial outcomes and contribute to the advancement of the academic sector. Additionally, I am enthusiastic about the possibility of becoming a part of WHUT in the academic sector. Being associated with such a reputable institution would provide a platform for continuous growth and learning. I would be grateful for any chance to contribute my knowledge and skills towards the academic endeavors of WHUT.

取得成就/ Major Achievements

I am honored to have been appointed as the Head of the Department for the MSc in Construction Management program at Nepal Engineering College CPS. It is a privilege to serve in this role, particularly considering that Nepal Engineering College CPS is the first college to offer an MSc program in Construction Management. I am grateful for the opportunity to be part of the pioneering team that is shaping the future of construction education in Nepal.

个人介绍/personal introduction

Prof. R. M. Kapila Tharanga Rathnayaka is presently working as a Professor in Statistics, Faculty of applied Sciences, University of Sabaragamuwa, Sri Lanka. I have obtained my B.Sc. (Special) Degree in Mathematics and Statistics from University of Ruhuna, Sri Lanka with the First class Honours (2008) and have obtained first Master Degree in Industrial Mathematics from University of Sri Jayewardenepura (2009-2011). In 2011, I had awarded the Chinese Government Scholarship for my second Master Degree in Statistics, Wuhan University of Technology, Wuhan, China (2011-2013). During my Master Degree, I received number of prestigious international awards including Chinese Scholarship Award for Outstanding student of the year (2013/2014) and Outstanding Graduate Student of the year (Master Degree) in 2013. Furthermore, I nominated again for the Chinese Scholarship for Doctoral Degree in Applied statistics in 2013. In 2016, I obtained my Doctoral Degree with number of prestigious international awards for best performances including the Scientific Achievements Award for the Publications (2016), Presidential Award for Outstanding Contributions (2014/2015) and Outstanding Graduate Student of the year for Doctoral Degree program in 2013/2016. Currently, I involved in multi-disciplinary applied research, with specific focus on economic, financial and bio statistics. Additionally, I am very well conversant in data analyzing under different practical scenarios based on traditional and novel introduced statistical approaches. I have published my work in several reputed international journals such as Journal of Grey Systems: Theory and Application - Emerald Insight, Modern Economy and etc.

取得成就/ Major Achievements

I have won the Scientific Achievements Award for the Publications in Wuhan University of Technology, the Chinese Scholarship Award for Outstanding student of the year 2016 for the Doctoral Degree Programme, and Best Research Paper Award in the 2019 International Congress on Grey Systems and Uncertainty Analysis (GSUA 2019) in Thailand. I am an outstanding junior researcher 2020, 25th Anniversary, Sabaragamuwa University of Sri Lanka, a best researcher of the Faculty of Applied Sciences in Sabaragamuwa University of Sri Lanka. I have won the Best Paper Award in The 2021 International Congress on Grey Systems and Uncertainty Analysis and Best Research Awards in 2022.

个人介绍/personal introduction

I currently work as a mining engineer for the government of Rwanda. In my work, I plan and execute projects that contribute to the sustainable development of the mining industry in my country. I oversee and provide technical support mining activities across the country to ensure that it is done in accordance to Rwanda's mining laws and regulations

取得成就/ Major Achievements

I currently hold the position of the mining engineer for the government of Rwanda. With my knowledge of Chinese, I constantly assist Chinese people who come to do mining activities in my country.

I am Alpha Yayah Jalloh, a Sierra Leonean who came to China in 2019 to pursue my masters degree in Logistics Engineering and Management at the Wuhan University of Technology. A University that knows how to make an international student feel at home with the services provided and the International student representative who doing a great deal to make student settle in the new environment. During my time at the school, I was serving in the capacity as the country representative. Also I was helping my dormitory in the capacity of Dorm representative to help other students with their needs.

My motto is: There is profit in hard work, but mere talk leads to poverty. You have to talk the talk and walk the walk if you expect to succeed. Put in the hard work and long hours, and you will see wealth come your way.

取得成就/ Major Achievements

I teach many courses and supervise many projects. I have published two papers.

个人介绍/personal introduction

I am an Artist and Academician, Assistant Professor of History of Visual Arts & Design at Banaras Hindu University, Varanasi, India. I earned a doctorate from Wuhan University of Technology, China where I specialized in Arts Studies, and an MFA specialization in Painting from Visva Bharati University, Santiniketan, India. My research interests include theories of art and its history, different art expressions on the creative skills ability to create the paintings and different art forms of visual psychodrama, in which I reverse roles with the people through the paintings. Much of my creative practice functions as an attempt to expand the practical sessions of art, the scope of philosophy's pedagogy via structured conversations, dialogical games, improvisational scores, contemplative audio guides and performative lectures.

取得成就/ Major Achievements

I work in SEED Grant under IoE (Institution of Eminence) for 3 years in Banaras Hindu University, Varanasi, India. I won 2020 Creative Award, WCAA 26th International Art Festival in 2020 and "JUMP OVER" 7th Youth Art Festival in Korea in 2020.

照片/picture**个人介绍/personal introduction**

Prof. Mohamed Kamal Ahmed Ali, Associate Professor in Mechanical Engineering (Automotive and Tractors Engineering Department), Faculty of Engineering, Minia University, El-Minia 61519, Egypt. I received my B.Sc. (with distinction and Honors, First Ranked) and M.Sc. degrees in Automotive Engineering from the Automotive and Tractors Department, Faculty of Engineering, Minia University, Egypt, in 2010 and 2013, respectively and Ph.D. in Nanotechnology Applications in Automotive with a focus on Engine Tribology and Nanolubricants from Wuhan University of Technology, China in 2017. I then carried out Postdoctoral research in Hubei Key Laboratory of Advanced Technology for Automotive Components at Wuhan University of Technology, China, in 2017-2019. I am currently working as an Associate Professor in the Faculty of Engineering, Minia University, Egypt.

取得成就/ Major Achievements

I have published more than 70 high-quality papers in SCI journals and EI conferences from 2015 to 2023. According to Web of Science, I have published 18 papers as the first author. Moreover, I have published 3 book/handbook chapter and Chinese Patent. I received the Egyptian State Encouragement Award for Engineering Sciences in 2020, which is granted annually by the Egyptian Ministry of Higher Education and Scientific Research of outstanding research achievements nationwide. I was awarded the Excellent Doctoral Dissertation Award in 2018, China, and Minia University Encouragement Award for Engineering and Technology Science in 2019, Egypt.

Dr. Tien Anh Tran (IEEE Member, IMarEST Member) a Research Fellow at Seoul National University, Seoul city, South Korea. I am an Assistant Professor (Lecturer) at Department of Marine Engineering, Vietnam Maritime University, Haiphong City, Vietnam. I am an Honorary Professor at School of Computing Science and Engineering, Galgotias University, India and an Honorary Adjunct Professor at School of Computer Science and Engineering, Lovely Professional University (LPU), India. I received B.Eng and M.Sc at Vietnam Maritime University, Vietnam in 2011 and 2014, respectively. I got Ph.D. Degree at Wuhan University of Technology, Wuhan, China in 2018. I am an Editor/Guest Editor for the reputation journals indexed in SCI/SCIE such as Environment, Development and Sustainability (SCIE, IF= 4.080), IET Intelligent Transport System (SCIE, IF = 2.568), International Journal of Distributed Sensor Networks (SCIE, IF = 1.938), Sustainable Computing: Informatics and Systems (SCIE, IF = 4.923), International Journal of Renewable Energy Technology, International Journal of Energy Optimization and Engineering (ESCI, Scopus), IEEE Internet of Things Magazine. In 2015, I had been awarded the Chinese Government Scholarship (CSC) for the full funding of Doctor of Philosophy (PhD) program in China. In 2019, I had been awarded the NEPTUNE prize for the outstanding researchers by Vietnam Maritime University, In 2022, I was one of five outstanding scientists in Vietnam to be nominated for Ta Quang Buu prize by the National Foundation for Science & Technology Development (NAFOSTED). Additionally, I had been selected and awarded the full scholarship for the Postdoctoral Fellowship Program of National Research Foundation (NRF) for Foreign Researchers by the Government of South Korea.
